

SAMPRATI GAURAV

B.Tech Computer Science (Cybersecurity) | Bengaluru, Karnataka, India
sampratigaurav123@gmail.com | +91 7488288878 | [Portfolio](#) | [Linkedin](#) | [Github](#)

PROFESSIONAL SUMMARY

Full-stack developer and cybersecurity student specializing in React, Node.js, and Python, with experience building real-time systems, AI-integrated apps, and secure browser extensions. Hackathon team lead with a strong built-in-public record across 20+ open-source repos with 700+ contributions this year and technical writing on networking/systems internals.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3
Frameworks: React.js, Next.js, Node.js, Express, Flask, Tailwind CSS
Databases & Systems: MySQL, MongoDB, Redis, DBMS, Computer Networks, Operating Systems
Cloud & Tools: AWS, Vercel, Docker, GitHub Actions, Socket.io, WebRTC, Supabase, Firebase
Security & AI: PBKDF2 Cryptography, Chrome Extension (Manifest V3), Cybersecurity Fundamentals, AI Agent Workflows

PROFESSIONAL EXPERIENCE

Machine Learning Intern — FlyRank AI (Remote) Jun 2026 – Present.

- Developed and optimized machine learning models for real-time data analysis, improving prediction accuracy by 15%
- Collaborated with cross-functional teams to integrate AI solutions into existing products, enhancing user experience and engagement.

Campus Ambassador — E-Cell, IIT Bombay, July 2026 – Present.

- Spearheaded outreach initiatives to engage over 500 students in entrepreneurship workshops, fostering a vibrant startup culture on campus.
- Organized networking events with industry leaders, facilitating mentorship opportunities for aspiring entrepreneurs and enhancing collaboration among student startups.
- Facilitated peer-to-peer mentorship sessions, guiding students in refining business ideas and developing pitch decks for startup competitions.

PROJECTS

SyncWatch—Real-Time P2P Media Sync Platform | [Github](#) | [Live](#)
React, TypeScript, Node.js, Socket.io, WebRTC, Redis, Chrome Extension (Manifest V3)

- Built a distributed audio/video sync engine (Socket.io + WebRTC), achieving sub-second frame coordination across multi-peer sessions.
- Designed a custom client-side audio fingerprinting system (Web Audio API) to match video encodings with >0.85 correlation accuracy.
- Engineered a Manifest V3 Chrome extension with Shadow DOM UI isolation and PBKDF2-secured, account-less room authentication.

Interactive Developer Portfolio - samprati.dev | [Github](#) | [Live](#)
React.js, Vite, Vercel

- Built an interactive portfolio with a global Command Palette, live GitHub contribution heatmap, and custom cybersecurity-themed UI features.
- Built a reusable React hook to manage stateful portfolio content; deployed via Vercel with custom CI/CD routing.

Distill—ML Data Poisoning Detection Platform | [Github](#)
Next.js, Python, Docker, GitHub Actions

- Architected a full-stack app (Next.js + Python API) to detect data poisoning in ML pipelines, with Docker containerization and automated CI.

CERTIFICATIONS

- Certified LLM Security Professional (CLLMSP) — Red Team Leaders (Jun 2026)
- Deloitte Australia Cyber Job Simulation (Nov 2025)
- Introduction to Cybersecurity — Cisco Networking Academy (Feb 2026)
- Command Line Course — Codecademy (Jul 2025)

TECHNICAL WRITING & OPEN SOURCE

- 15+ technical articles on networking (TCP/IP, DNS, HTTP) and Linux/dev tooling on Hashnode; 700+ open-source contributions across 20 repos.

EDUCATION

Dayananda Sagar University, Bengaluru—B.Tech, Computer Science (Cybersecurity) Sep 2024 – Sep 2028
Student ID: ENG24CY0156 | Activities: E-Cell, Basketball, Badminton
